

*GET an Edge!<sup>TM</sup>*

*With AMECA  
ISO-Certification*

Companies today are constantly looking for an edge. Whether that's in price, engineering, design, logistics, customer support—anything to Get an Edge<sup>TM</sup>.

AMECA's ISO-Certification program gives your customers instant assurance of quality and performance. 80% of consumers surveyed prefer independently certified parts—and are willing to pay for it.

AMECA's robust ISO-Certification program was designed by automotive industry professionals. We live, breath and occasionally bleed automobiles so you know our program was designed for you to "Get and Edge.<sup>TM</sup>"

## FOREWORD

This publication is a compilation of regulated motor vehicle safety equipment items which have been tested to recognized standards by accredited testing laboratories and found to be in compliance with jurisdictional requirements as overseen by the Automotive Manufacturers Equipment Compliance Agency, Inc (AMECA).

The AMECA *Compliance List* is published in monthly and contains all valid AMECA Notice's of Equipment Compliance™ issued during the previous three years plus any new compliance documents added in the previous month. The monthly *Compliance List* is uploaded to the website [www.ameca.org](http://www.ameca.org) under the page titled: *Handbook of Compliant Automotive Safety Devices*. This web-based accessibility allows jurisdictions all-hours field access to information relevant to accident investigations, anti-counterfeit actions, and compliant product purchasing.

If you would like to receive notification of the updated AMECA *Compliance List* please send an email to: [Subscriptions@ameca.org](mailto:Subscriptions@ameca.org) with the sections you wish to receive in the body of the email.

Every effort is made to accurately report all new, renewed and revised items from every AMECA compliant participating manufacturers. Your suggestions are always welcome and AMECA is proud to serve law enforcement at every level. AMECA exists to serve you.

Information relative to the preparation of submissions for Notices of Equipment Compliance™ can be found in the *Manufacturers Guide for Safety Equipment Compliance Services*. This guide also contains general AMECA program information. A complete listing of safety-related items covered by AMECA is also available at [www.ameca.org](http://www.ameca.org).

Grateful acknowledgment is made to those who have cooperated in making this listing possible.

These Devices Are Listed In Alphanumeric Sequence By Company.

*Automotive Lamps are items we certify*

## Which is best for your Company?

AMECA's A2LA accredited ISO-Certification Program is for top companies who want to *Get an Edge* and gain you branding and marketing advantages.

AMECA's Compliance Registration program is for companies who want to meet the basic legal requirements and either can't meet or don't need additional certification.

Either case, AMECA is your one source for automotive safety equipment registration!

*Get an Edge™*

## About AMECA

Formed in 1994 to continue the Equipment Compliance Program conducted by AAMVA since 1967, the Automotive Manufacturers Equipment Compliance Agency, Inc. has a long history promoting public safety. We have a deep understanding standards and regulations and are staffed by engineers with automotive backgrounds. Our staff participates in international standards committees and keeps current with automotive industry. There are over 80 laboratories in 16 countries as part of the AMECA Equipment Compliance Program.

Accredited by A2LA as an ISO-17065 Certification Agency.

*Comparison of  
AMECA Programs*

[www.ameca.org](http://www.ameca.org)

AMECA's Equipment Compliance Program and A2LA accredited ISO-Certification program have much in common but with significant differences.

Both programs require testing, registration item marking and a retesting period.

Safety Glass is covered by both programs

AMECA's Equipment Compliance Program lists items which meet FMVSS or SAE standards as required by U.S. State regulations. It does not cover

manufacturing, design, quality control, distribution or outside auditing. The Equipment Compliance program is also conducted by part number or by material properties.

AMECA's A2LA accredited ISO-Certification Program is a thorough certification system. Our ISO-Certification Program covers all the areas of our Equipment Compliance Program but with greater depth. The program has market audits, verifies design, manufacturing, quality system, and personnel. The ISO-Certification

Suspension Components can be ISO-Certified!

program is not limited by state regulated items. It uses FMVSS, SAE or industry standards. ISO-

Certification

Program companies have exclusive use of the AMECA Certified logo and *Get an Edge™* Trademark

ISO Certification for:

- Automotive Exterior Lighting
- Automotive Safety Glass
- Automotive Suspension Components and Wheels
- Vehicle Brake Hoses

	 AMECA Equipment Compliance	 AMECA Certified ISO-Certification
Product Meets Federal/State Requirements	√	√
Must Have ISO-9001/IATF-16949 (ISO-16949)		√
